

Denis Tverdokhlebov

Senior Frontend Developer with **8+** years of experience

GMT+4 | +995 598 601 039 | dentverd@gmail.com | www.linkedin.com/in/dentverd

About

Frontend engineer with over 8 years of practical experience in design, development and maintenance of various web applications.

Developed web apps of different sizes and complexity using Angular and React.js frameworks with modern technologies, design patterns and principles (also have basic experience with backend development using ASP.NET and Node.js). Have a rich teamwork background (including distributed remote teams) and good communications skills. Enjoy designing robust and scalable software that solves complex problems.

Skills

Frontend Development: React.js, JavaScript, TypeScript, MobX, Redux, Jest, React Testing Library, Material-UI, Angular, Angular.js, Webpack

Other: Figma, Git, GitHub, BitBucket, JIRA

Experience

NITKA: 06/2022 – PRESENT, 2+ YEARS

- Developed frontend for a cloud-based data management platform, improving workflows for data engineers, DevOps teams, and analysts. Built scalable, high-performance UIs using React and MobX, enhancing usability and efficiency

Technologies: React.js, MobX, JavaScript, React Hook Form

EPAM SYSTEMS: 11/2020 – 02/2022, 1.4 YEARS

- Built the frontend architecture from scratch, defining the tech stack and structure, enabling the first release in under 2 months
- Developed the MVP in a team of 2 frontend developers (later expanded to 3), leading and mentoring a junior developer, ensuring smooth onboarding and contributing to their growth
- Integrated a complex video chat feature using Azure Communication Services, enhancing real-time communication between patients and doctors
- Integrated a CI/CD pipeline using Microsoft Azure, reducing deployment time and streamlining the release process
- Optimized collaboration between design and development, reducing iteration cycles by 25%

Technologies: React.js, Redux (Toolkit), React Hook Form, TypeScript, Jest, React Testing Library, Material-UI, Microsoft Azure

TINTRI: 11/2019 – 10/2020, 1 YEAR

- Built a reusable component library in a team of 3 frontend developers, adopted across 4 company projects, improving development efficiency
- Streamlined API design by actively contributing to weekly planning and architecture discussions, ensuring consistency and usability
- Led 10+ demos and knowledge-sharing sessions, accelerating adoption and reducing onboarding time for new developers
- Optimized collaboration with designers and product managers, refining requirements and reducing iteration time by 20%
- Provided ongoing support to frontend teams, reducing integration issues and improving development speed

Technologies: Angular 8/9, TypeScript, Karma, Jasmine, Jira

NEXENTA SYSTEMS, INC: 03/2018 – 11/2019, 1.9 YEARS

DEALERPILOT HR: 08/2017 – 02/2018, 7 MONTHS

ADEPTIK PLUS: 05/2016 – 06/2017, 1.3 YEARS

Education

ASTRAKHAN STATE TECHNICAL UNIVERSITY, BACHELOR'S DEGREE, 2013 – 2017

Software Engineering
